

## DEAL OR NO DEAL™ OFFICIAL CONTEST DETAILS

The DEAL OR NO DEAL™ promotion (the "**Contest**") is an experience produced by Scientific Games ("**SG**") in connection with participating state lotteries ("**Lotteries**" or "**Lottery**"). Grand Prize Finalists (the "**Finalists**") are randomly selected by participating Lotteries per individual state Lottery rules. The total number of Finalists depends upon Lottery participation levels. Each Finalist will receive a Lottery-sponsored trip to Orlando to play a non-broadcast, lottery-winners-only DEAL OR NO DEAL game (the "**Game**") for the chance to win cash prizes ranging from \$0.01 to a potential grand prize of \$1 million. By participating in the Contest, each Finalist agrees that all decisions regarding the Contest are made at the sole and exclusive discretion of SG and are final and binding on all Finalists.

1. To participate in the Contest, eligible participating Lottery ticket holders must:
  - A. Enter the Contest through the participating Lottery's promotional, second-chance website/app following all entry rules established by the participating Lottery, be randomly selected by the participating Lottery in one (1) or more drawings from among all eligible entries received during the official entry periods and meet all participating Lottery selection and prize validation requirements. (See participating Lottery website for official entry and drawing rules.)
2. The Game will take place in Orlando, Florida, on or about September 15, 2020. The specific date and location of the Game is subject to change and shall be posted on the Lottery's website no later than May 1, 2020.
3. Each Finalist selected to participate in the Contest shall play the DEAL OR NO DEAL Game, as described below.
4. Starting with the Banker's offer in Round 2, the Finalist may look to his or her "cheering section" (e.g., friends, family members, other Finalists) for advice on case selection and whether to accept offers. However, only the Finalist's decisions or selections are counted during the Game.
5. The Game is played using twenty-six (26) uniquely and sequentially numbered briefcases, one (1) through twenty-six (26). The briefcases are identical in appearance and each briefcase contains the designation of a unique cash amount ranging from \$0.01 to \$100,000. The twenty-six (26) unique cash amount designations contained in the briefcases are listed on a board (the "**Board**") that is visible to the Finalist, the host, the Banker and the audience, as follows:

One (1) of the twenty-six lottery balls will have a “10X” multiplier designation printed on the ball, and one (1) of the remaining twenty-five (25) lottery balls will have a “5X” multiplier designation printed on the ball. Each of the remaining twenty-four (24) lottery balls will be blank.
7. Each Game consists of an Opening Multiplier Ball Selection Round, followed by a Finalist’s Briefcase Selection Round, followed by at least one but as many as nine (9) Elimination Rounds. The Rounds take place as follows:
  - A. Opening Multiplier Selection Round: At the beginning of each Game, one lottery ball from the pool of twenty-six (26) balls is randomly selected on behalf of the Finalist through the operation of the lottery ball mixing machine. B. Finalist’s Briefcase Selection Round: Following the Opening Multiplier Selection Round, the Finalist selects one (1) of the twenty-six (26) numbered briefcases, and the selected briefcase is set aside (the “Finalist’s Briefcase”).

C. Elimination Round 1:

- a) From the remaining twenty-five (25) briefcases, the Finalist selects six (6) briefcases to eliminate from play, one at a time. Each briefcase is opened as it is selected, and the cash amount listed inside the briefcase is revealed, and then removed from the Board. (For clarity, the Finalist is never given an opportunity during the Game to change, substitute or replace the selected Finalist’s Briefcase. Once the Finalist’s Briefcase is selected by the Finalist, it remains the Finalist’s Briefcase until the Game ends.)
- b) After the Finalist’s sixth briefcase selection in Elimination Round 1, a telephone on the podium rings and the host answers it to speak with the Banker (the “**Banker**”). After the call ends, the host relays the Banker’s cash offer to buy the Finalist’s Briefcase. The Banker’s cash offer will be equal to forty percent (40%) of the sum of the remaining amounts on the Board divided by 20 (the number of remaining cash amounts on the Board, which includes the unknown cash amount contained in the Finalist’s Briefcase). The Finalist has the following two (2) options (For clarity, the Finalist is never given the option of making a “counter offer” to the Banker):
  - (1) Accept the Banker’s cash offer and end the Game by saying "Deal" and pressing a red button on the podium; or
  - (2) Reject the Banker’s cash offer by saying "No Deal," closing a hinged cover over the button and proceeding to Elimination Round 2.

D. Elimination Round 2:
